

## Autumn Science Competition!

To promote curiosity and a love of finding out how the world works... I am setting the challenge of an autumnal themed science competition...

Search the internet to seek inspiration...

I will pick a winner from each class...  
meaning there will be 3 winners overall!

To enter, simply Dojo me a picture/video of what you've done and I will make a poster of all our entries.

Class 2/3 should be able to write about what they did and what they found out!
