I have two children in Tittensor, one in Reception and one in Year 3. Both my children enjoy the education they receive. This makes me supportive of the work and vision of the school. I feel passionate about the school's inclusive culture and I feel I could bring new ideas and different ways of thinking to benefit all of our children as part of the Tittensor School family. I have over 7 years experience in HR for a large retail company and feel my skills surrounding performance monitoring and working to tight budgets would be advantageous for the board of governors.

I am an experienced parent of six children and recognise the significance of providing the right environment for every individual to excel at school. I currently have one child at Tittensor First whom we adopted and also has extra educational needs. This has given me a greater knowledge and understanding of the educational system and the support and care the school provides for every child. I have lived on Beechcliff Lane for over 20 years and have formed strong links with the families and the wider community within Tittensor village. As a mother, friend and pastor, I am passionate about supporting families and helping to create an environment where parents feel cared for and listened to, and children are able to feel safe, learn and enjoy their time in school. As a leader of a church based in the local community, I understand the need for a clear vision and the importance of creating a Christian-based culture within Tittensor First School. I believe that holding executive leaders to account for the educational performance of the organisation and its pupils and the effective performance management of staff is a key responsibility for any governor.
